YOU ARE
HERE

Earth

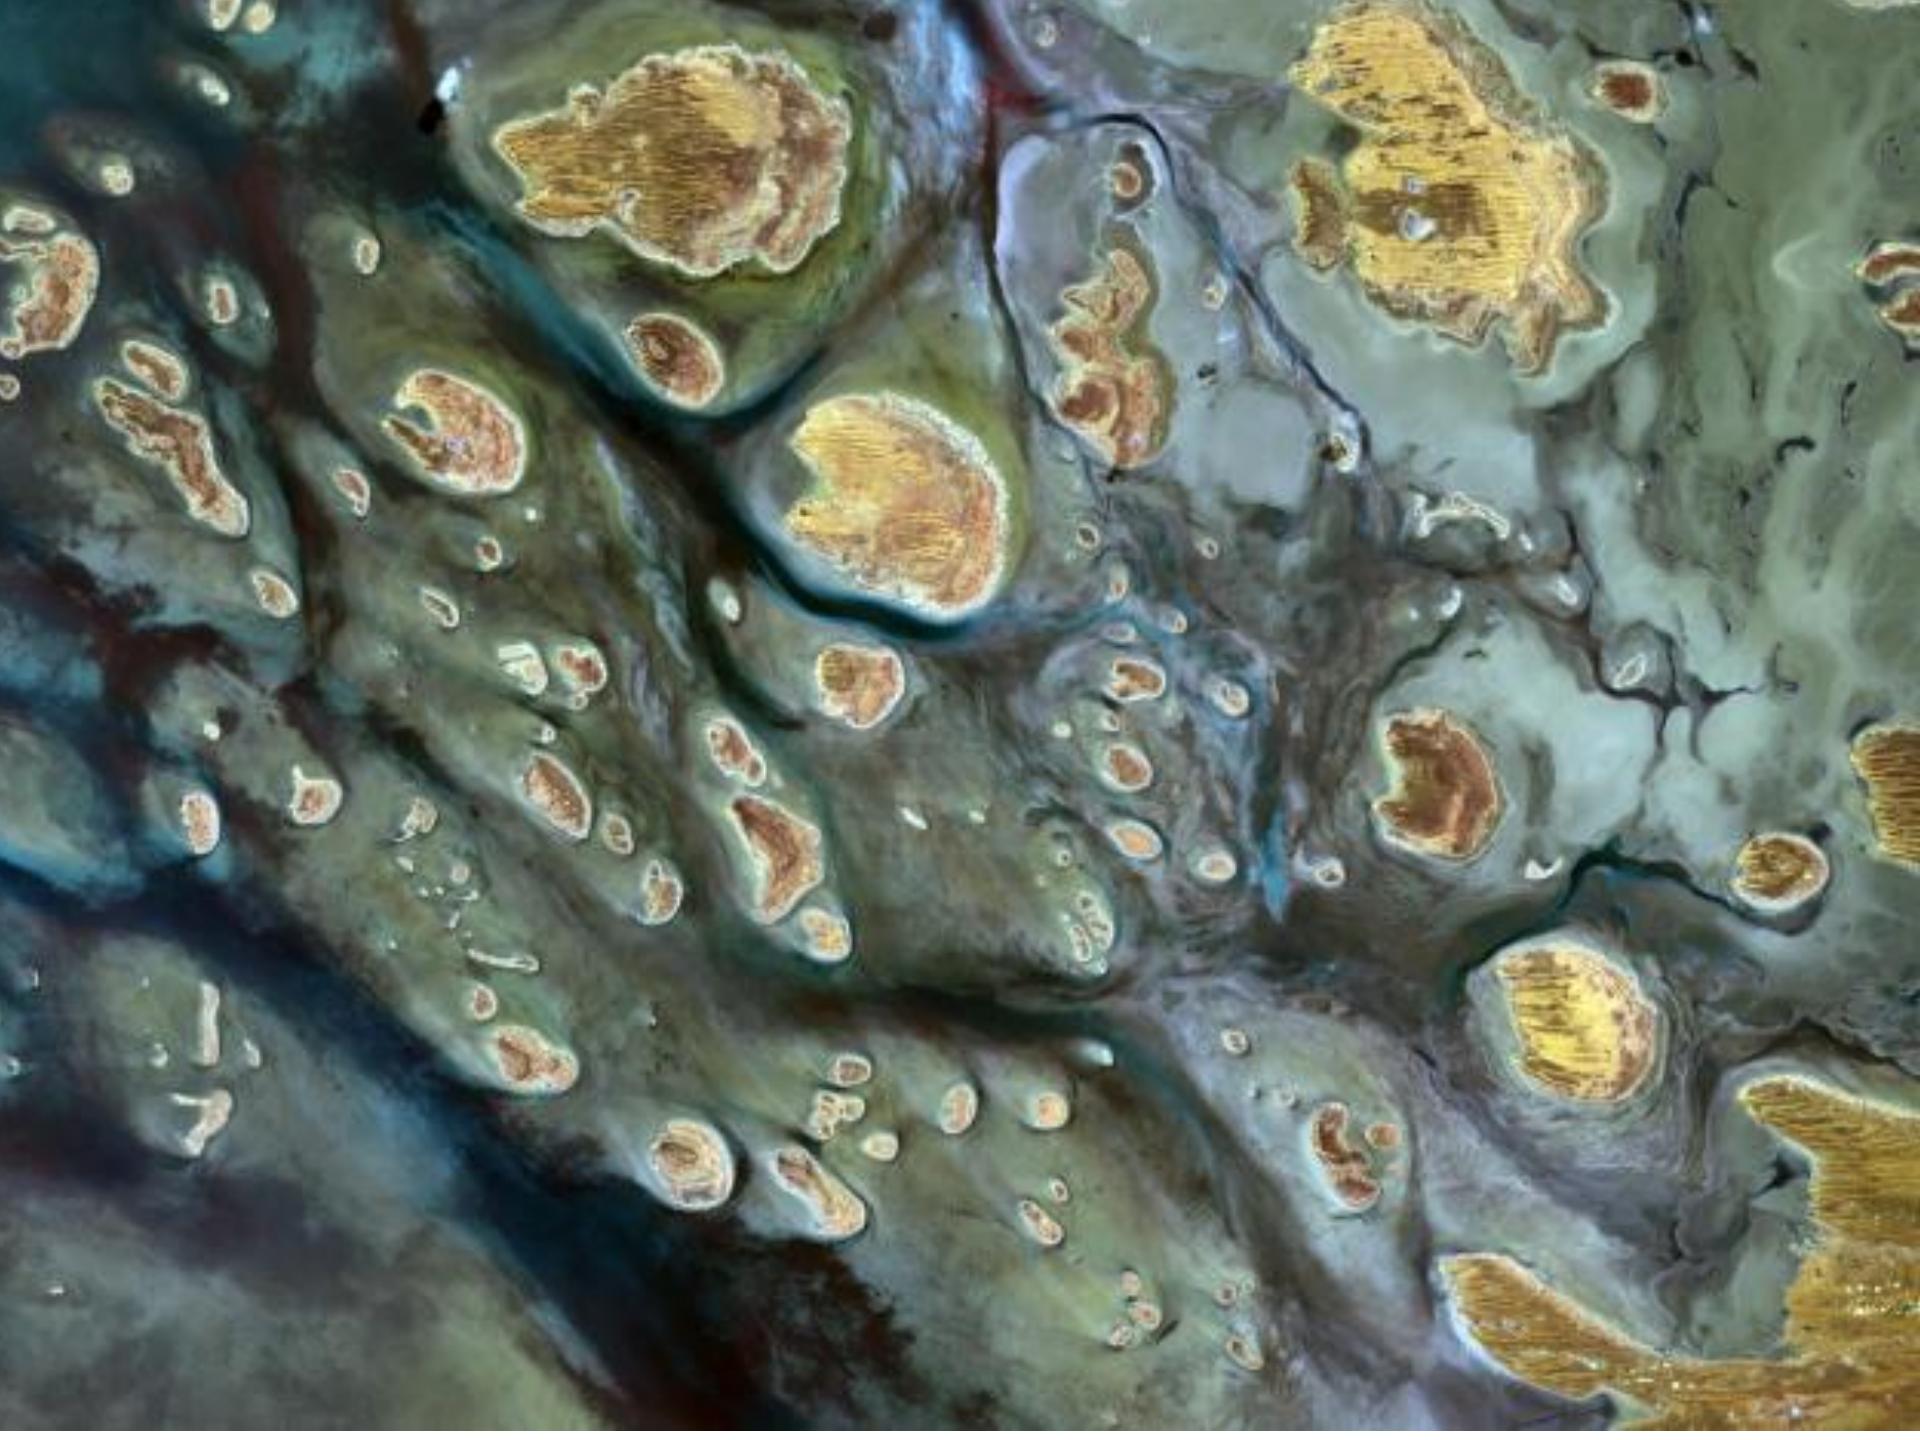

NASA

YOU ARE IN THIS PICTURE
OUR ISLAND SEEN FROM MARS on 13
January 2014

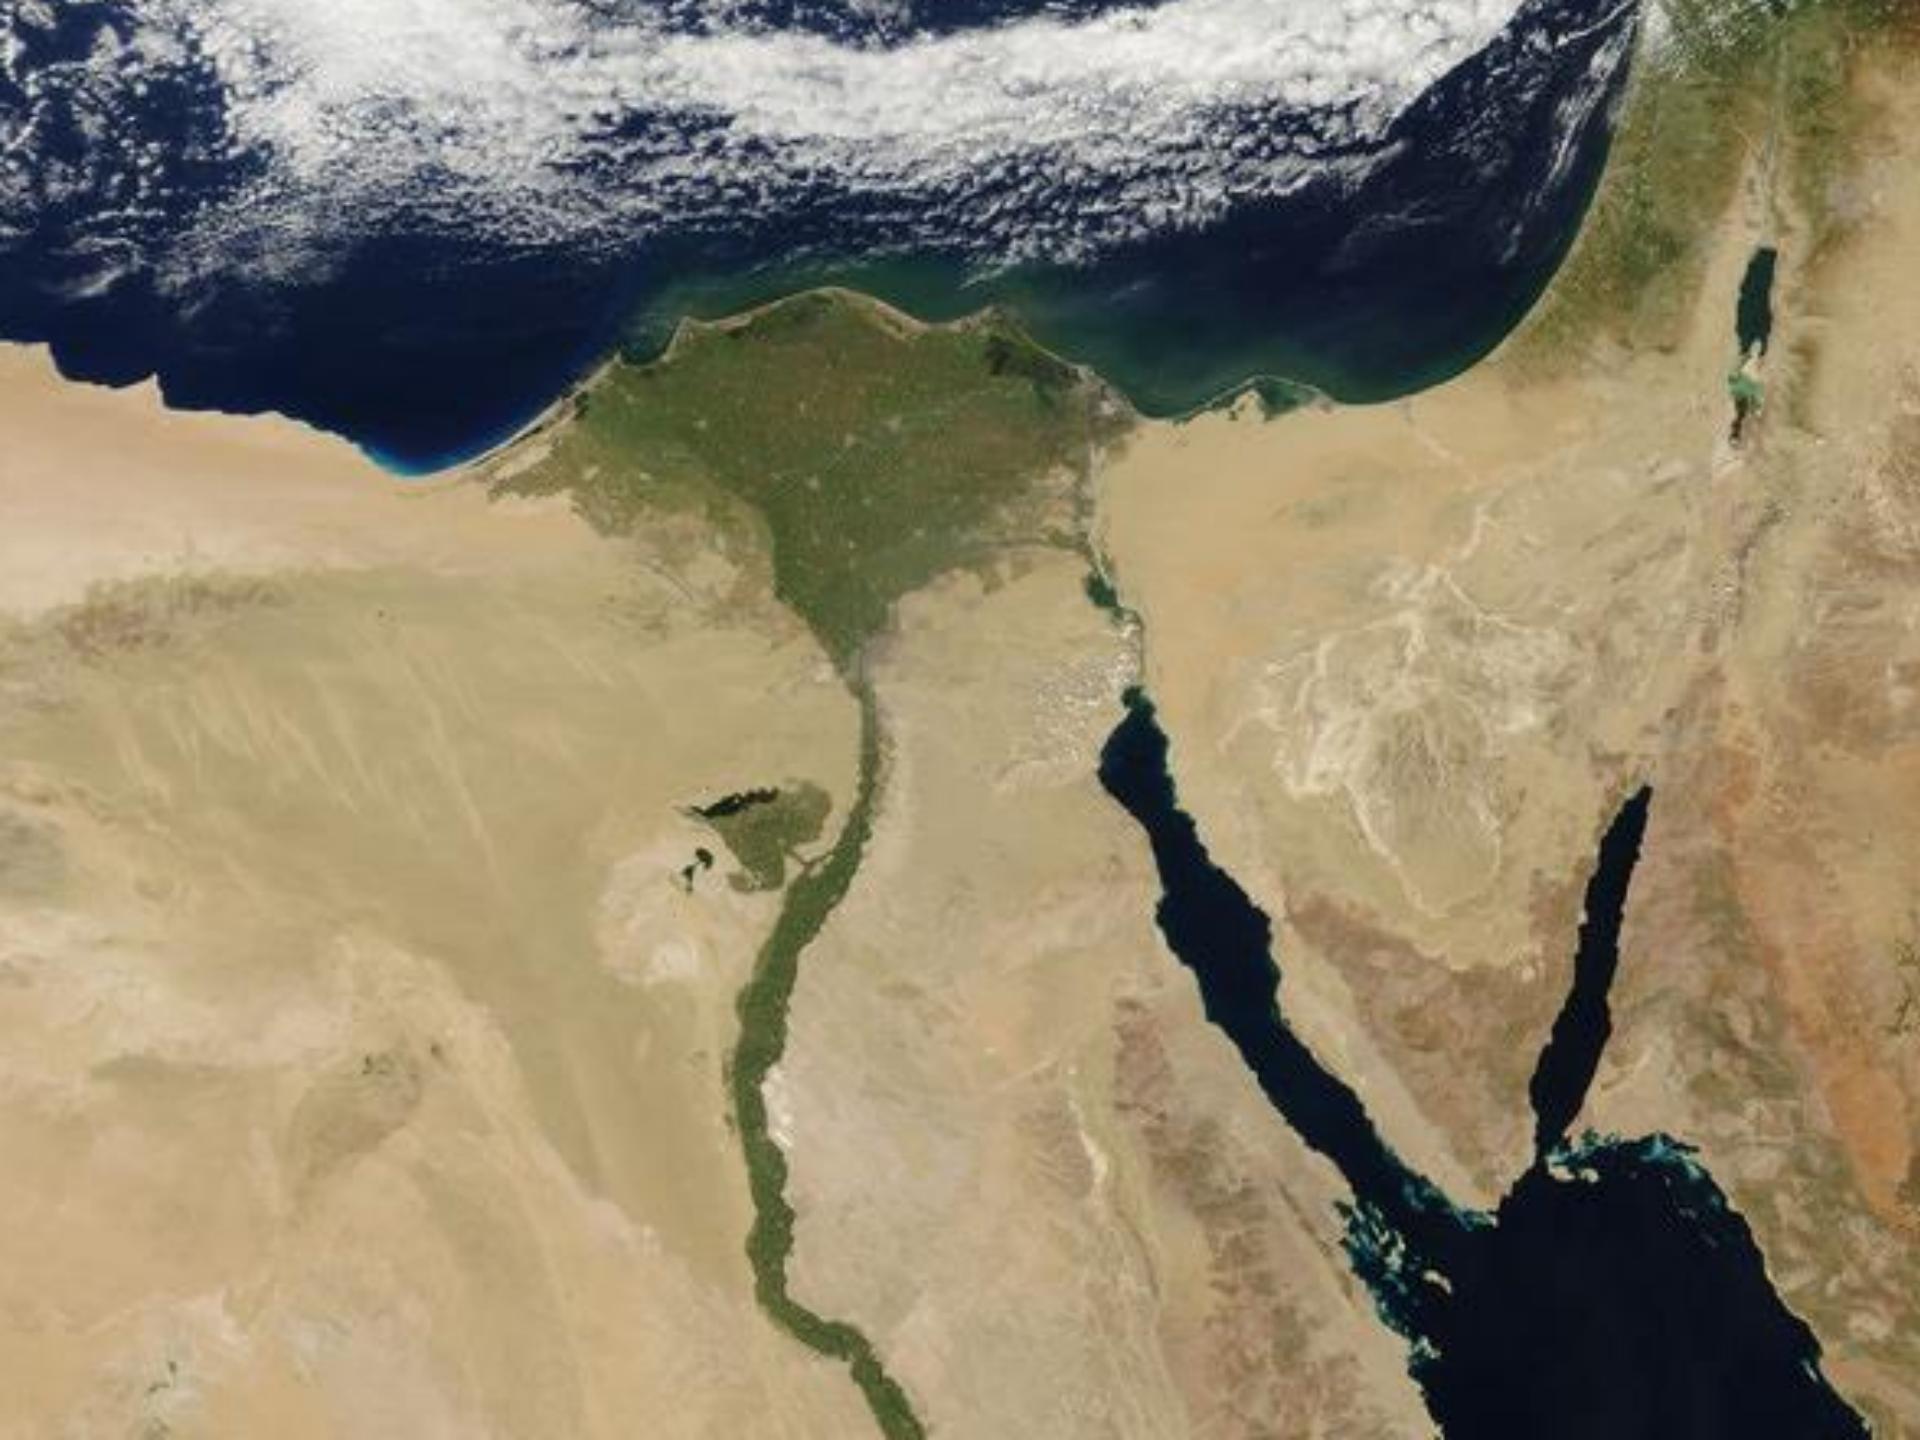

An aerial photograph of a volcanic island, likely Mount St. Helens in Washington State, showing a massive crater formed by a 1980 eruption. The crater floor is filled with a dark, deep blue body of water. The surrounding terrain is rugged and covered in green vegetation, with some snow and ice patches visible on the slopes.

OUR ISLAND IS
SPECTACULAR!

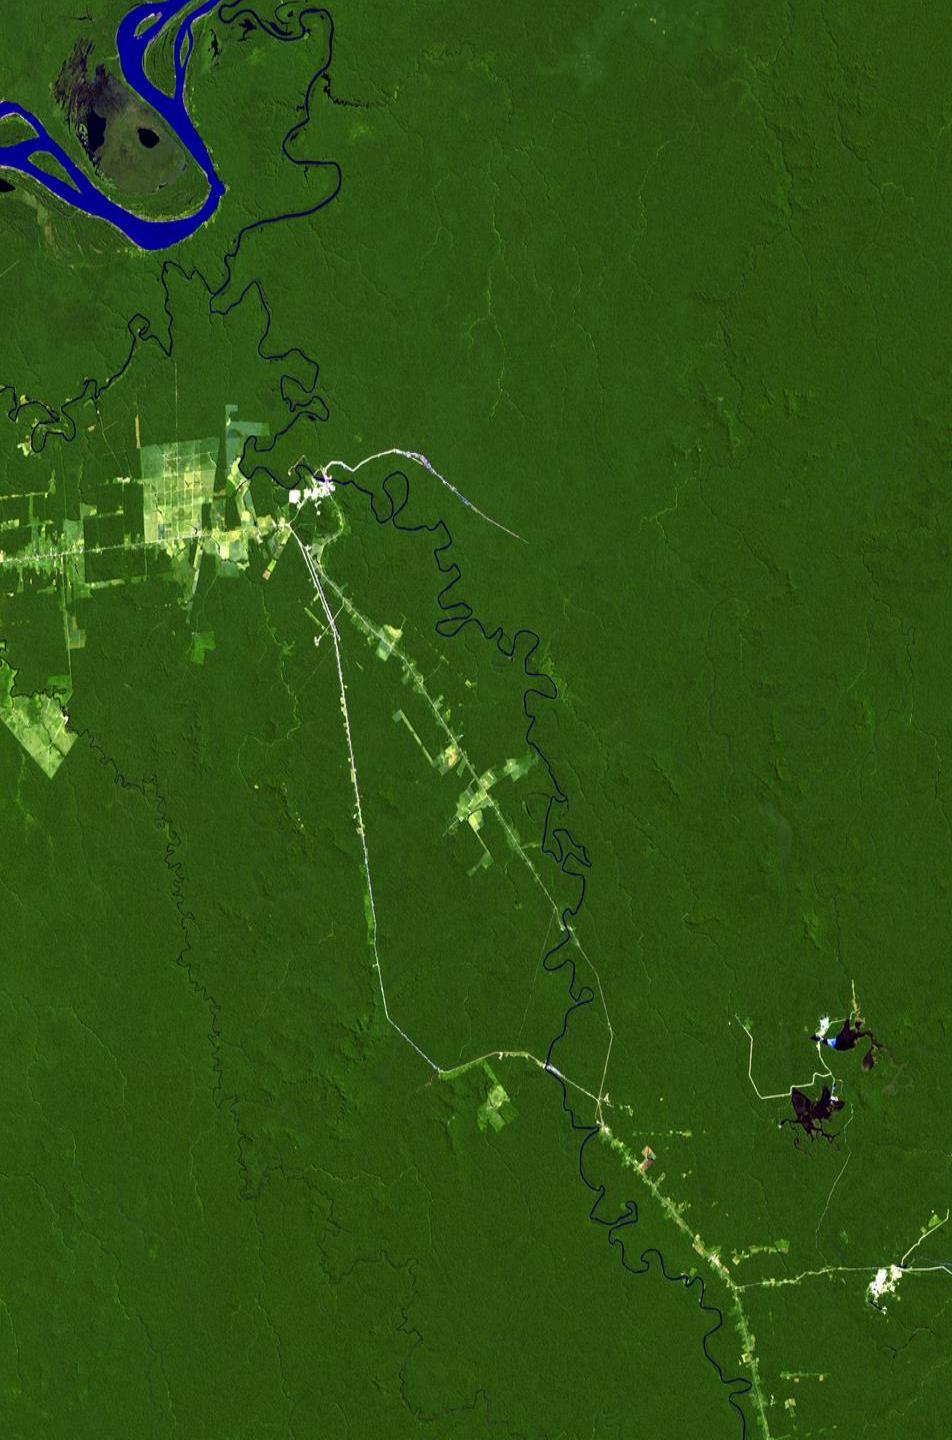

THE EARTH IS OUR ISLAND!

1. THE ISLAND IS SPECTACULAR!

2. WE HAVE A LOT OF PEOPLE ON THE ISLAND

3. WE NEED TO TAKE CARE OF OUR ISLAND

- LIMIT THE DAMAGE!

- CONSERVE NATURAL RESOURCES!

- USE SUSTAINABLE RESOURCES!

4. WE NEED TO BE NICE TO OTHER PEOPLE
